PROFILE

I'm Yo'lchiyev Muhammadaziz, an 18-year-old programmer with extensive experience in Frontend software development. Currently, I am actively working on practical projects and expanding my knowledge of Backend technologies. I have a genuine passion for learning new technologies and applying them in real life.

PROJECTS

CRM-Woorkroom

- This project was developed in 2025 with both Backend and Frontend components, designed exclusively for desktop use. It is currently live under the domain fiver.uz

YouTube Clone

- This project was developed in 2025, focusing solely on the frontend part and designed exclusively for desktop use. It is currently live and running on vercel.app

Post-Pilot | Landing Pages

- I have also developed numerous responsive landing pages, one of which is the Post-Pilot landing page. This project was fully optimized for responsiveness and has been deployed on vercel.app

- In addition to these, I have built several other projects available on my GitHub account, including a Weather App, a Calculator, and many more.
